Description

Techniques you'll learn

Embossing, Dye cutting, Stamping

Materials

1. MFT stamps
2. [Polychromos pencils](#)
3. [Distress inks](#)
4. [White cardstock](#)
5. Black ink
6. [Acrylic block](#)
7. [Foam tape](#) or [adhesive dots](#)
8. [Scissors](#)
9. [Paper trimmer](#)

Step-by-step Instructions

Step 1: Choose your MFT stamp images and stamp them onto white cardstock using black ink. Use an acrylic block to position the stamps and apply even pressure to transfer the ink to the paper.

Step 2: Use your Polychromos pencils to color in the stamped images. Blend the colors as necessary to achieve your desired look. You can also add details with a fine-tip black pen if desired.

Step 3: Cut out the colored images using scissors or a paper trimmer, leaving a small border around each one.

Step 4: Choose your Distress ink colors and ink up a foam applicator or blending tool. Use a circular motion to apply the ink to a piece of white cardstock, creating your desired background pattern.

Step 5: Cut the inked cardstock to the size you want for your card base.

Step 6: Use foam tape or adhesive dots to attach your stamped and colored images to the front of the card base.

Step 7: Optional – stamp a sentiment onto white cardstock using black ink and cut it out. Attach it to the card using foam tape or adhesive dots.
