## Follow your dreams!!

## **Description**

Hello friends, a very quick card today.

CD\_21I am entering for the first time to the current 10 Minute Craft Dash challenge.

This is what i came up

make my card, but when I saw this fun challenge I thought to give it a try. The theme for this week is "STARSâ€. I was having this cool stickers by Simple Stories, so to create a scene, I first inked my card base with Distress ink (Antique Linen), it took me around 4 minutesâ€lpuffffâ€lI was never so quick ðŸ~‰ after that I sprinkle (or may be almost pour :P) water to give some texture to the background. I adhere my cloud sticker with some dimension and finally adhere some stars, love that they are in different colors, I arrange them and added some dash lines, applied some stickles. Finally added the sentiment which is by Lawn Fawn and tadaa!!! my card was finished in total **9 min.15 sec**. I am happy that I give it a try, would love to play again. ðŸ<sup>TM</sup>,

Thank you so much for stopping by and have a wonderful weekend. ðŸ™,
