Happy Birthday!!

Description

Hello friends!! I am back again with a new card.

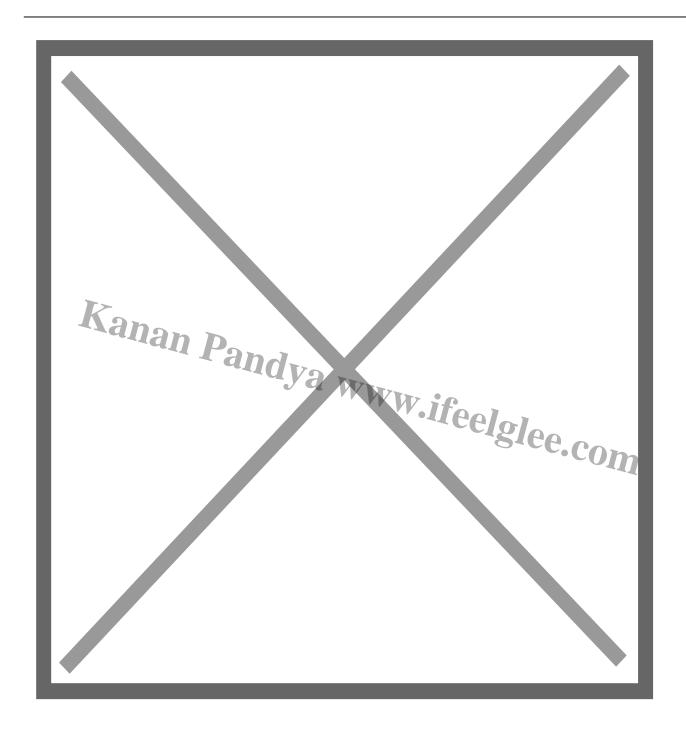

I am entering

it in few of the following challenges.

Challenge 20_thumb[2]

Linky badge

Here is the card.

I created a scene where those cute little images are gazing at starry sky. I used Memento and Distress inks to create the sky and earth. Used stencil to create the stars and added some stickles on each of the star. I love how it turned out. Hope you will enjoy watching my glittery card.

Thank you so much for stopping by, I will come back soon. $\check{\sigma} \ddot{Y}^{\intercal M}$,
