

So Lovely!!

Description

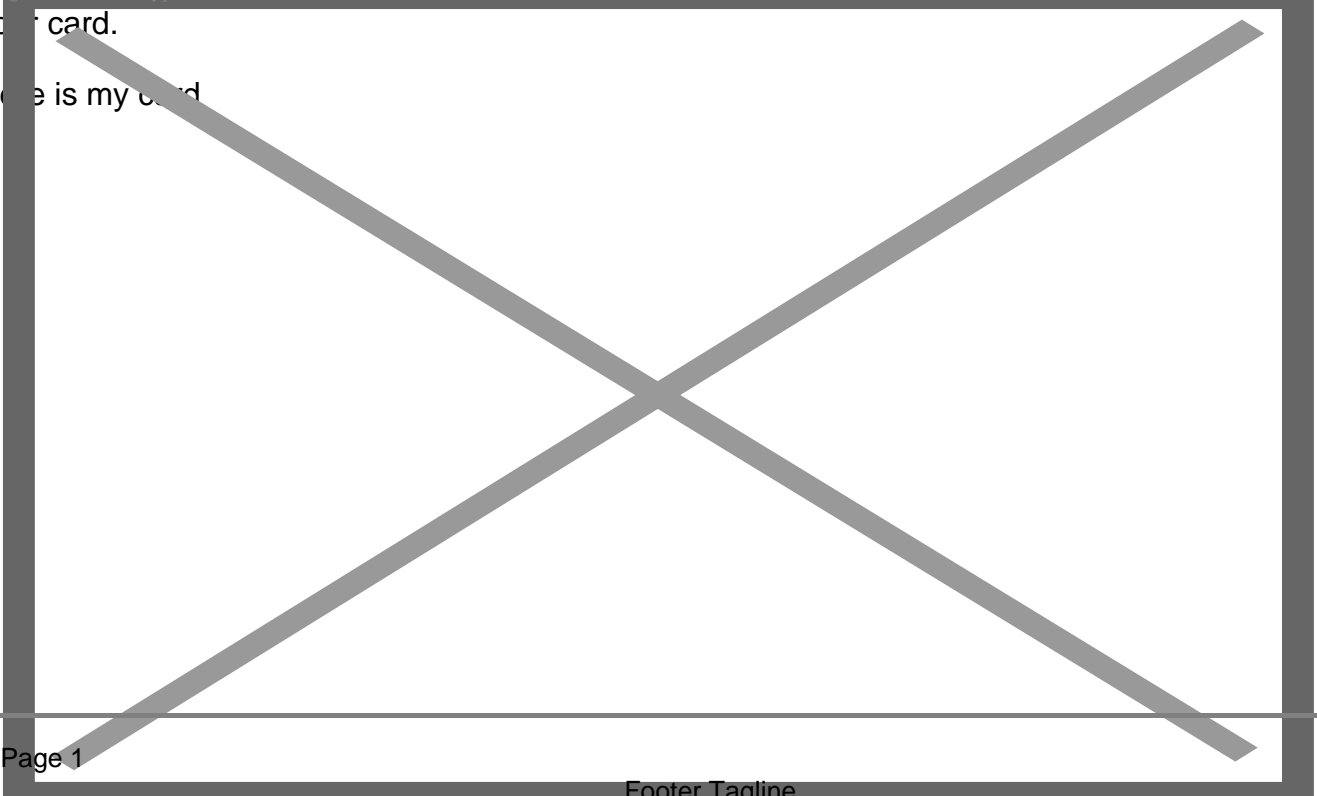

Good morning friends. I made a fun card using stickers and patterned papers.

No image found or type unknown

[ifeel16](#) I love this week's challenge at CAS-ual Friday blog. You have to use sequins and chevron on your card.

Here is my card

having this cute stickers by Dear Lizzy – American Crafts and in that I saw this cute mint chevron sticker which is not too big, so I made my own tag and adhere the sticker on that the “So Lovely” sentiment is also by the same collection. I really like this color combination, so I used matching patterned papers which is also by American Crafts. But After I arranged everything I thought that something is missing, so I add the flower embellishment on my tag, I love the watercolor look on this flower and it matched perfectly. Very lightly I inked the edges and the tag with Distress ink (Antique linen). Finally some sequins and little hearts to complete my card. I guess this is my first card where I have not used any stamp. I really like this cute card, hope you will like this too.

Thank you for stopping by and see you all soon.
