Ain't it

cute? he looks so delicate with baby pink color. My joy no bounds on arrival of him, It's been more than 15 days the eggs were there in the nest and I was scared that some thing is wrong because when I researched on Google about the process, it was mentioned that the hatching time would be somewhere around 10-14 days so I was little worried. Aaahh but now I am super happy. Good start for the day. ?

Hope this picture will make you happy too. ?

Thank you for checking out my post. ?
